Welcome to the Future of Jury Management

The jury process is often the public's first impression of the court system, making it essential for building trust and confidence. A well-organized, efficient process demonstrates professionalism and fairness, shaping how jurors, witnesses, and others perceive the integrity of the entire judicial system. A positive first impression strengthens confidence in the court's decisions and reinforces the legitimacy of its proceedings.

Jury by ezJustice is designed to enhance this crucial first impression by modernizing and streamlining jury management. By reducing administrative workload, engaging jurors more effectively, and improving overall efficiency, it ensures a smoother, more effective process—reinforcing trust and confidence in the fairness and integrity of the court system from the very start.

Our Commitment to Court Efficiency and Juror Experience

At ezJustice, we know every court is unique. That's why Jury by ezJustice is built to flex—supporting everything from individual courts to those coordinating jury selection for multiple courts.

With continuous innovation, hands-on training, and exceptional support, we ensure every court gets the most out of their system.

I can't wait to show you how Jury by ezJustice streamlines juror selection, boosts communication, and simplifies reporting—saving time, reducing admin work, and improving the juror experience.

Let's modernize jury management—together.

Annual Load & Jury Group Configuration

Jury by ezJustice streamlines the annual juror selection process, eliminating overwhelming, extensive manual efforts with advanced automation and flexible configuration options, enabling courts to efficiently import, filter, group, and manage jurors in minutes instead of hours.

Bulk Juror Import – Easily import large juror lists from sources like the Board of Elections and/or your motor vehicle agencies.

Configurable Jury Groups – Adaptable to your terminology and structure, whether you need it by quarters, terms, weeks, on-call, or any other custom framework.

Automated Draw Process – Reduce jury selection time from hours to minutes with system-guided juror draws - included in the cost of your annual maintenance.

Jurisdictional Filters – Conduct specialized juror draws for multi-jurisdictional cases or draw jurors for smaller courts within a larger district.

Juror Portal & Questionnaire Management

Jurors expect modern, self-service solutions that allow them to complete necessary documentation and allow them to communicate with jury staff easily. *Jury* by ezJustice includes a mobile-friendly juror portal that simplifies questionnaire completion, scheduling, and communication.

Custom Questionnaires – Build unique questionnaires with conditional logic. Retire old ones and launch new ones anytime.

Smart Response Flagging – Automatically flag questionnaire responses that meet your criteria so staff review only what matters.

Mobile-Responsive Portal – Customize the homepage with your own content and allow jurors to request excusals, update contact information, check trial status, and message staff from any device.

Juror Contact Updates – Allow jurors to update personal details and set preferred communication methods (text, email, phone).

Courtroom Packet Generation – Quickly generate tailored trial packets such as venire lists, juror questionnaires, and case cover sheets. Judges can receive full versions while attorneys get redacted ones.

Real-Time Trial Schedule Display – Publish trial schedules instantly to the portal with minimal effort.

Communication Hub

Effective communication with jurors is essential to maintaining high attendance rates and reducing administrative workload. Jury by ezJustice integrates powerful email, text, and notification tools, making it easy for courts to stay connected.

Centralized Inbox for All Communications – Manage email, SMS, and MMS communications in one place.

Outlook Integration – Send and receive emails directly within the system, eliminating the need for external email applications.

Linked Communications – The system automatically matches communications to juror records, with easy manual linking for unknown text or email communications.

Attachments & Multimedia Support – Allow jurors to upload required documents directly through email or from the portal.

Mass Notifications – Send bulk alerts for trial updates, cancellations, or urgent notices.

Communication Status Tracking – Mark messages as reviewed or pending to ensure nothing is missed, give jurors visibility, and help staff collaborate without duplication.

Jury Selection & Courtroom Management

Efficient jury selection requires real-time tracking, structured voir dire management, and seamless documentation. *Jury* by ezJustice provides interactive tools to help courts strike, seat, and manage jurors with ease.

Juror Check-In – The system displays all jurors scheduled to appear, making check-in a straightforward process. Scan a barcode or click ‘Check In’ to record attendance and mark jurors as available for a case.

Real-Time Seating Management – Track who is in the box, who is seated as an alternate, and instantly replace a struck juror with another. All strike reasons are configurable to meet each court’s practices.

Documentation Generation – Automatically create certificates of service, excuse letters, seating charts, or any custom document. Batch generation makes it easy to prepare paperwork for entire groups at once.

Reporting & Payment Processing

Jury by ezJustice provides real-time reporting on juror attendance, payments, and selection records, ensuring courts have instant access to accurate data. Automated payment processing simplifies financial tracking, reduces errors, and eliminates the need for manual audits.

Customizable Reports – Generate detailed reports on juror data, payments, and trial outcomes.

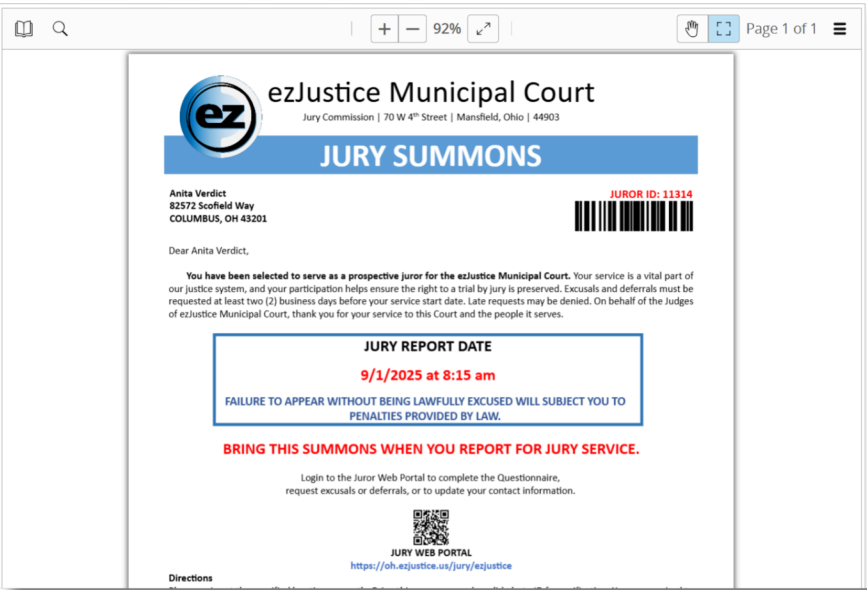

Automated Payment Tracking – Streamline financial tracking and reduce workload for auditors and finance teams.

Custom Export Options – Download reports in Excel, PDF, and other formats to meet auditing needs.

Batch Payment Processing – Efficiently process juror payments by jury group, date range, or custom filters.

Comprehensive Audit Log – Maintain full transparency with a complete record of jury selection, strikes, and updates for compliance reviews.

Demographic Insights – Access data-driven reports on jury group composition to support fair and informed decision-making.

Printing & Mailing Services

Jury by ezJustice can take the burden of printing and mailing off your staff with our optional in-house managed service. We handle the entire process, ensuring timely notifications and seamless integration with the system, while giving courts full visibility into what has been sent.

Mail Status Visibility – Track when summonses are printed and mailed, giving courts clear accountability without extra effort.

Customizable Templates – Easily create and update your own summons text and design. Courts maintain full control, and any assistance is included under the maintenance contract.

One-Click Submission – Submit mailing jobs for processing with a single click, no complex steps required.

In-House Printing & Mailing – All printing and mailing is managed directly by the ezJustice team, reducing staff workload while ensuring timely delivery.

Implementation & Support

Seamless Onboarding & Training

Hands-On Training for Court Staff – Live, tailored training sessions for jury staff to ensure confidence in using the system.

User Acceptance Testing – Conduct trial runs and sandbox testing to ensure all functionalities align with your needs before full system deployment.

Dedicated Implementation Specialist – Each court is assigned a specialist to oversee the transition and provide step-by-step guidance.

Dedicated U.S.-Based Customer Support

Help Desk Support – Our U.S.-based support team is available to troubleshoot issues and answer questions.

Live Phone Assistance – Instant access to experts who can help resolve technical or operational questions.

Continuous Feedback Loop – We continuously collect feedback from courts to enhance system features and usability.

Scalable for Any Court Size

Customizable to Any Workflow – Supports single-court or multi-jurisdictional jury selection processes.

Web-Based Accessibility – Allows for secure access on any device, ensuring court staff can manage jury selection efficiently from anywhere.

No IT Expertise Required – Designed for easy use with intuitive interfaces and guided workflows, eliminating the need for dedicated IT personnel.

Modular System – Courts can enable or disable features based on their specific requirements.

Implementation Timeline

Overview

A standard implementation follows this timeline, but adjustments are made based on court size and specific requirements.

Phase	Estimated Duration	Key Activities
Kickoff & Planning	1-2 weeks	Business process review, document and report gathering, configuration decisions
System Configuration	3-5 weeks	System configuration & training schedule setup
Training & Testing	2-4 weeks	Staff training, live testing, feedback collection, system refinements
Go-Live & Support	Ongoing	Full system deployment, on-site or remote support, ongoing optimizations

Additional Information

Frequently Asked Questions (FAQs)

General Questions

What is *Jury* by ezJustice?

- *Jury* by ezJustice is a modern, end-to-end jury management system that automates juror selection, communication, check-in, payments, and reporting to improve efficiency and accuracy for court staff.

Who is *Jury* by ezJustice designed for?

- *Jury* by ezJustice is designed for jury commissioners, court administrators, clerks, and courtroom staff who manage jury selection and management processes.

Can *Jury* by ezJustice be customized to fit our court's workflow?

- Yes! *Jury* by ezJustice is fully configurable to support your court's processes. Whether you draw panels directly from the source list or use a more complex hierarchy—such as pools, panels, terms, trimesters, half-years, or any other structure—the system can adapt. Best of all, you can label each level with the names your court prefers.

Implementation & Training

How long does implementation take?

- The implementation timeline varies by court size and complexity, but most courts complete the setup within 10-12 weeks.

What kind of training is available for court staff?

- We provide three live, hands-on training sessions, each scheduled at the stage when staff will actually begin using those features. This ensures training is timely, relevant, and directly tied to real-world use.

Juror Experience & Communications

How does the juror portal improve engagement?

- The portal allows jurors to complete questionnaires, communicate with jury staff, request excusal/deferrals, update contact info, and view trial schedules online, reducing court staff workload.

How does the system notify jurors?

- Court staff can send mass reminders and updates directly to each juror's preferred contact method—text, email, or phone —helping to reduce failure-to-appear rates. Jurors can also call or text the reporting line to provide their candidate ID and instantly receive reporting instructions tailored to them.

Can jurors upload documents for excusals and deferrals?

- Yes, jurors can securely upload supporting documents through the portal, and court staff can review them in the system.

Security & Compliance

Courts handle sensitive personal data, making security and compliance a top priority. *Jury* by ezJustice is built with enterprise-grade security measures to protect juror information and court operations.

Hosted on AWS Gov. Cloud – Hosted on secure, U.S.-based servers with encrypted data storage.

Role-Based Access Controls – Restricts system access based on defined user roles.

Automated Audit Logs – Tracks all system activities for transparency and compliance.

SOC 2 Type 2 Certified – Ensures protection of personal and legal data.

Regular Security Updates – System updates include the latest security patches to protect against cyber threats.
